Date of birth: 19/12/2002 | Website: ago19pc.github.io

WORK EXPERIENCE

RESEARCH DATA SCIENTIST – ISTITUTO NEUROLOGICO CARLO BESTA – Current – MILAN, ITALY

Collect data from doctors and hospital dataset.
Clean and preprocess data.
Extract features from CT/MR, clinical records and notes of doctors.
Develop and implement ML models
Ensure explainability of models to be allowed in clinical use.

INTERNSHIP AT AI LAB – UNIVERSITÀ SAN RAFFAELE – 2023 – 2024 – MILAN, ITALY

Conducted literature research and analysis using PubMed and other reputable sources to gather relevant scientific knowledge.
Sourced and identified datasets from online and public repositories to support AI/ML projects.
Collected, cleaned, and preprocessed data to ensure accuracy, consistency, and usability for model training.
Developed and implemented machine learning models tailored to project objectives.
Optimized and fine-tuned models to improve performance, robustness, and accuracy.
Created and delivered final presentations summarizing results, insights, and discussion points to stakeholders.

PROJECTS

File-Sharing (AirDrop Clone) | JavaScript, React, Docker, AWS EC2

Developed a fast and reliable cross-platform file-sharing application, enabling seamless data transfer across any device and operating system.
Built a full-stack JavaScript architecture, utilizing React for the user interface and configuring NGINX as the web server to efficiently serve the front-end.
Containerized the entire application stack using Docker to ensure service isolation, facilitate modularization, and improve environment reproducibility.
Deployed and managed the cloud infrastructure on AWS EC2 instances to guarantee high availability and scalable performance in production.

Automated Gym Booking System | Python, PlayWright, HTML, NGINX, Docker (Ubuntu), Cron

Developed an automated scheduling application that allows users to manage and secure gym shift reservations in advance.
Engineered a backend script in Python utilizing **Playwright** for robust browser automation, designed to navigate the gym's web portal and execute bookings.
Orchestrated the script execution within an isolated Ubuntu Docker container, utilizing cron jobs to trigger the automated reservations precisely at midnight.
Built a lightweight user interface with HTML, served via NGINX, enabling seamless user authentication and the selection of future reservation slots.

Java Game Development

Coded and deployed *Codex Naturalis*, a Java-based 2D online card game, ensuring maintainability, scalability, and adherence to clean code principles.

MySQL Database design and implementation

Designed and implemented a MySQL database to allow fast data storage and retrieval for a festival organization

React App Development

Coded front-end app in React (JavaScript and TypeScript) for a local pizzeria

Crypto Post Quantum

Optimized SHA algorithms by leveraging SIMD/vectorized instructions on x86 and ARM architectures, writing performance-critical sections in assembly, and analyzing C and assembly code for further improvements.

EDUCATION AND TRAINING

2021 – 2024 Milan, Italy

DOCTOR IN COMPUTER SCIENCE ENGINEERING Politecnico di Milano

Website polimi.it | Final grade 100 | Level in EQF EQF level 6

2024 – 2026 Milan, Italy

EXPERT IN AI FOR MEDICAL FIELD Università San Raffaele

Website univr.it | Level in EQF EQF level 7

LANGUAGE SKILLS

Mother tongue(s): **ITALIAN**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	C1	C1	C2	C1
SPANISH	B1	B1	B1	B1	B1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

Coding

JavaScript | C | HTML | Java | MySQL | VHDL | C# | C++ | React | CSS | Tailwind | Matlab | Python (computer programming)

Other Tech

SSH | Blender | EC2 | AWS | Microsoft Excel | Git | Microsoft PowerPoint | Vivado | Figma | Linux Shell | Microsoft 365 / Microsoft Office

Soft Skills

lead a team | teamwork principles | communication | interact verbally in English | solve problems
